- Unlimited Storage
- Remote Installer
- HDD-based storage
- Support by Phone
- Data Export
- No Ads

F.A.Q

What do I get with a Paid Plan?

Paid subscribers of ActivTrak have the ability to record continuous, multiple screenshots for a newly activated window. When combined with alarm criteria that targets a specific website or applications, multiple screenshots can be quite useful in tracking activities of interest, such as long instant messenger conversations, social network usage, etc.

What defines Agents and Users?

Agents are ActivTrak Agents downloaded from ActivTrak Dashboard and installed on your computers. In other words, with a free basic plan you can monitor up to 3 remote computers.

Users are organization's team members who will access ActivTrak Dashboard, build reports, get email alerts and change ActivTrak settings - they need individual access to your ActivTrak Account.

Can I change plans or cancel my account at anytime?

Yes. Changing plans is really simple. Upgrade or downgrade your plan anytime right from your ActivTrak account. You can also cancel your annual plan during first 30 days for complete refund. Monthly plans can be canceled at any time.

Looking for a Custom plan?

Custom number of agents? Paying NET30 or in your local currency? Call us 1-888-907-0301 9am to 5pm US Central Time. We also have enterprise plans that can handle any volume you need.

How reliable is your service?

Your data is safe and secure. It's stored in highly secure data center on state-of-the-art computer servers protected by 24-hour surveillance. Our product and infrastructure is updated regularly with the latest security patches. Our network is protected by a firewall and all ActivTrak plans include SSL encryption to keep your data safe.
